Re: General Notice Letter for the Portland Harbor Superfund Site in Portland, Oregon

Dear Mr. Kilpatrick:

Under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), commonly known as the federal Superfund law, the U.S. Environmental Protection Agency (EPA) is responsible for responding to the release or threat of release of hazardous substances, pollutants, or contaminants into the environment – that is, for stopping further contamination from occurring and for cleaning up or otherwise addressing any contamination that has already occurred. EPA has documented that such a release has occurred at the Portland Harbor Superfund Site (the Site) located in Portland, Oregon. EPA has spent, or is considering spending, public funds to investigate and control releases of hazardous substances or potential releases of hazardous substances at the Site. Other parties have spent and are spending funds to conduct a remedial investigation and feasibility study. Based on information presently available to EPA, EPA has determined that BAE Systems San Diego Ship Repair, Inc. may be responsible under CERCLA for cleanup of the Site or costs EPA and others have incurred in cleaning up the Site.

Explanation of Potential Liability

Under Sections 106(a) and 107(a) of CERCLA, 42 U.S.C. §§ 9606(a) and 9607(a), a Potentially Responsible Party (PRP) or parties may be required to perform response actions deemed necessary by EPA to protect the public health, welfare, or the environment, and may be responsible for the costs incurred by the government in responding to any release or threatened release at the Site. Such actions and costs may include, but are not limited to, a preliminary assessment and site investigation in order to gain an understanding of any risks posed by releases or threatened releases for the Site to human health and the environment, conducting a removal response action at the Site, expenditures for conducting a Remedial Investigation/Feasibility Study (RI/FS), conducting a Remedial Design/Remedial Action (RD/RA), and other investigation, planning, response, oversight, and enforcement activities. In addition, PRPs may be required to pay for damages to, destruction of, or loss of natural resources, including the costs of assessing such damages.

EPA has evaluated information in connection with the investigation of the Site performed to date and believes that BAE Systems San Diego Ship Repair, Inc. may be a PRP with respect to this Site. PRPs under CERCLA include current owners or operators of the Site; former owners or operators of the Site at the time of disposal of any hazardous substances; persons who arranged for disposal, treatment, or transport of hazardous substances at the Site; or persons who accepted hazardous substances for transport to the Site. Specifically, EPA has reason to believe that hazardous substances have been or are being released from the facilities located at 5555 North Channel Avenue, 5815 North Lagoon Avenue, and 5851 North Lagoon Avenue in Portland, Oregon, into the "study area" for the Portland Harbor Superfund Site, which is River Mile 2 to River Mile 12.

To date, EPA and other parties have taken several response actions at the Site under the authority of the Superfund Program. Below is a brief description of some of the actions taken at the Site.

- A Preliminary Assessment (PA) and Site Investigation (SI) in order to gain a basic understanding of any risks posed to human health and/or the environment by releases or threatened releases from the Site.
- A Remedial Investigation (RI) to identify the Site characteristics and to define the nature and extent of soil, air, surface water, and groundwater contamination at the Site and the risks posed by the Site.
- A Feasibility Study (FS) to evaluate different cleanup options for the Site.

Information to Assist You

EPA would like to encourage communication between you, other PRPs, and EPA at the Site. To assist you in your efforts to communicate, we have enclosed a list of names and addresses of PRPs identified to date for the Site. Additionally, EPA has an internet website for the Portland Harbor Superfund Site at: <http://yosemite.epa.gov/R10/CLEANUP.NSF/sites/ptldharbor>.

EPA is encouraging PRPs to convene a mediated allocation process. Through such a process PRPs work together to allocate the cleanup costs and work through intra-party issues to prepare for future negotiations with EPA for performance of the cleanup and reimbursement of response costs after EPA has issued its Record of Decision for the Portland Harbor Superfund Site. A comprehensive settlement for performance of all work and reimbursement of response costs will avoid litigation and significant transaction costs to you and your company. A group of PRPs have formed a convening group to start this effort. Below is a contact person for the Convening Group:

Resources and Information for Small Businesses

As you may be aware, on January 11, 2002, President Bush signed into law the Superfund Small Business Liability Relief and Brownfields Revitalization Act. This Act contains several exemptions and defenses to CERCLA liability, which we suggest that all parties evaluate. You may obtain a copy of the law via the Internet at <http://www.epa.gov/swerosps/bf/sblrbra.htm> and review EPA guidance regarding these exemptions at <http://www.epa.gov/compliance/resources/policies/cleanup>.

EPA has created a number of helpful resources for small businesses. EPA has established the National Compliance Assistance Clearinghouse as well as Compliance Assistance Centers which offer various forms of resources to small businesses. You may inquire about these resources at <http://www.epa.gov>. In addition, the EPA Small Business Ombudsman may be contacted at <http://www.epa.gov/sbo>. Finally, EPA developed a fact sheet about the Small Business Regulatory Enforcement Fairness Act (SBREFA), which is enclosed with this letter.

Please give these matters your immediate attention and consider consulting with an attorney. If you have any technical questions regarding the Portland Harbor Superfund Site, you may contact Kristine Koch, Remedial Project Manager, at (206) 553-6705. If you have legal questions about this letter, please contact Lori Houck Cora, Assistant Regional Counsel at (206) 553-1115. Thank you for your prompt attention to this matter.

Sincerely,

Daniel D. Opalski, Director
Office of Environmental Cleanup

INFORMATION SHEET

U. S. EPA Small Business Resources

If you own a small business, the United States Environmental Protection Agency (EPA) offers a variety of compliance assistance resources such as workshops, training sessions, hotlines, websites, and guides to assist you in complying with federal and state environmental laws. These resources can help you understand your environmental obligations, improve compliance, and find cost-effective ways to comply through the use of pollution prevention and other innovative technologies.

Compliance Assistance Centers

(www.assistancecenters.net)

In partnership with industry, universities, and other federal and state agencies, EPA has established Compliance Assistance Centers that provide information targeted to industries with many small businesses.

State Agencies

Many state agencies have established compliance assistance programs that provide on-site and other types of assistance. Contact your local state environmental agency for more information or the following two resources:

EPA's Small Business Ombudsman

(www.epa.gov/sbo or 1-800-368-5888)

Small Business Environmental Homepage

(www.smallbiz-enviroweb.org or 1-724-452-4722)

Compliance Incentives

EPA provides incentives for environmental compliance. By participating in compliance assistance programs or voluntarily disclosing and promptly correcting violations before an enforcement action has been initiated,

businesses may be eligible for penalty waivers or reductions. EPA has two policies that potentially apply to small businesses:

The Small Business Compliance Policy

(www.epa.gov/compliance/incentives/smallbusiness)

Audit Policy

(www.epa.gov/compliance/incentives/auditing)

Commenting on Federal Enforcement Actions and Compliance Activities

The Small Business Regulatory Enforcement Fairness Act (SBREFA) established an SBA Ombudsman and 10 Regional Fairness Boards to receive comments from small businesses about federal agency enforcement actions. If you believe that you fall within the Small Business Administration's definition of a small business (based on your North American Industry Classification System (NAICS) designation, number of employees, or annual receipts, defined at 13 C.F.R. 121.201; in most cases, this means a business with 500 or fewer employees), and wish to comment on federal enforcement and compliance activities, call the SBREFA Ombudsman's toll-free number at 1-888-REG-FAIR (1-888-734-3247).

Every small business that is the subject of an enforcement or compliance action is entitled to comment on the Agency's actions without fear of retaliation. EPA employees are prohibited from using enforcement or any other means of retaliation against any member of the regulated community in response to comments made under SBREFA.

Your Duty to Comply

If you receive compliance assistance or submit comments to the SBREFA Ombudsman or Regional Fairness Boards, you still have the duty to comply with the law, including providing timely responses to EPA information requests, administrative or civil complaints, other enforcement actions or communications. The assistance information and comment processes do not give you any new rights or defenses in any enforcement action. These processes also do not affect EPA's obligation to protect public health or the environment under any of the environmental statutes it enforces, including the right to take emergency remedial or emergency response actions when appropriate. Those decisions will be based on the facts in each situation. The SBREFA Ombudsman and Fairness Boards do not participate in resolving EPA's enforcement actions. Also, remember that to preserve your rights, you need to comply with all rules governing the enforcement process.

EPA is disseminating this information to you without making a determination that your business or organization is a small business as defined by Section 222 of the Small Business Regulatory Enforcement Fairness Act or related provisions.
